January 23, 2018

Dear Prospective Endodontist:

I have an excellent opportunity for an Endodontist to join my existing private practice that is rapidly growing to meet the demand for services.

We are seeking a talented, energetic, and motivated Endodontist to join our practice as an associate with planned partnership. Candidate must possess superb clinical and surgical ability, ethical standards, and interpersonal skills. The candidate must also be dedicated both professionally and socially to developing their presence within the dental community. We will offer the financial and marketing tools to develop a loyal referral base that is the critical element of professional success and personal satisfaction.

Endodontic Associates of Illinois was founded approximately 7 years ago. This practice has an excellent reputation in the community and has a large supportive referral base. We have two state of the art offices in the Western Suburbs of Chicago. Both offices are equipped with JMoritia CBCT units as well as Dexis digital x-rays, surgical microscopes, ASI integrated carts, and TDO practice management software.

Our office is committed to serving our patients, our referring doctors, and all of our team members. This outstanding opportunity in the Western Chicago Suburbs is one of the best places to enjoy life and raise a family. I can be reached at the office, or my personal cell phone at (773)308-4835.

Thank you for your time.

Sincerely,

John Pawluk, DDS
